**You bring

we'll bring the
creativity**

Style up to 3 outfits - think
Light & Bright,
Dark & Moody and
Fun & Fashion.

DENIM

Denim photographs well and is a great choice for a relaxed family portrait. Pair it with white, black or a pop of colour, it has a timeless feel.

Match Maker

SAME COLOUR - DIFFERENT SHADE

SHADES OF BLUE

Wearing the same colour in different shades is a great way of creating unity in an image. Choose a colour palette that suits your home.

SHADES OF BEIGE

SHADES OF GREEN

COLOUR POP

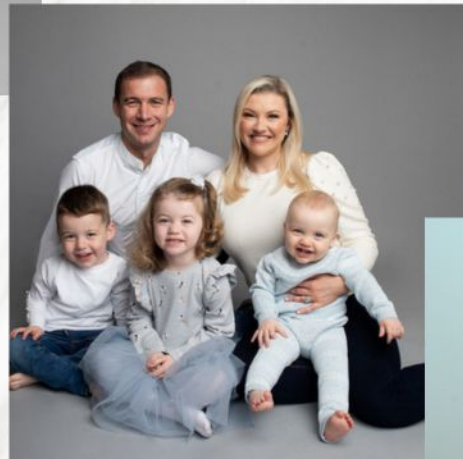

BRIGHT & ACTIVE

Add a splash of colour whether you match or clash, it can brighten up your images. A great way to ensure kids feel involved is to allow them to pick one of their outfits. Polka dots and glitter? Why not! These images are great for albums and portrait walls.

Classic

Lights & Brights

Perfect for minimalists. Long shirts will cover arms and remember ladies to wear a light bra unless you're making a statement.

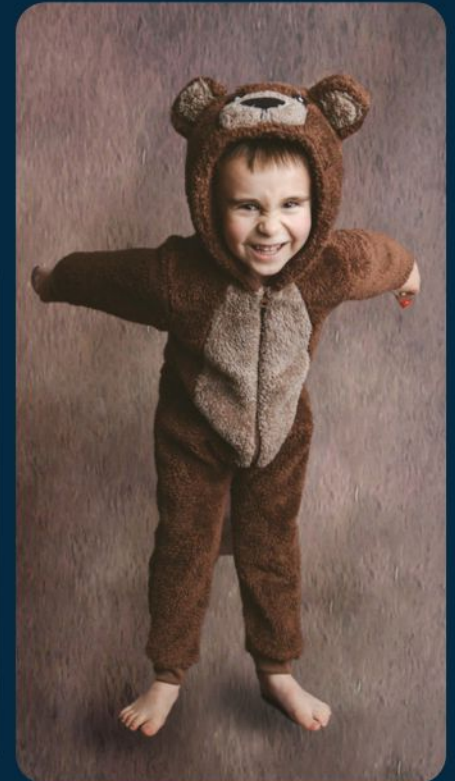

Accessorise

Hoods, hats, silly socks and jewellery can add elements of movement and playfulness to your portraits - don't be shy, bring out the real you & let us capture the creative characters within the family

Make it Personal Teddy bears, sports kits or musical instruments - show off your hobbies & interests and create personal artwork

SHOES VS BAREFOOT

Clean your shoes or wash those toes. Going barefoot gives a more natural vibe while wearing trainers, shoes and heels can complete a look - just check the soles!

But don't forget these tips too!

Remove Apple Watches (they catch the light)

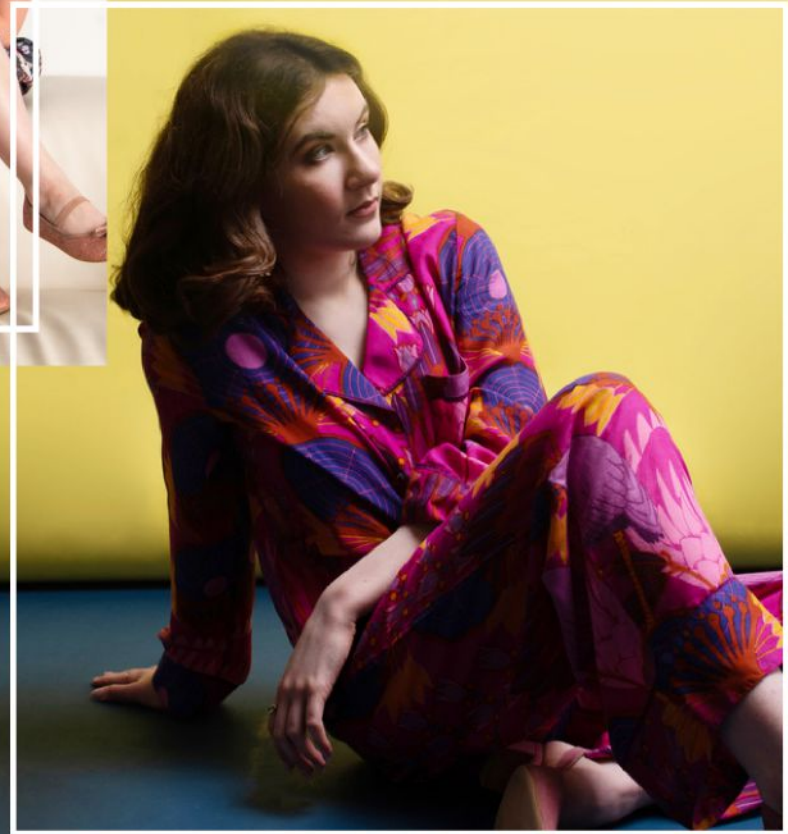

Remove hair ties from your wrist

Clear your pockets

Avoid transition lenses

Make it Glam

Grab your Little Black Dress, that wedding outfit you loved or your tuxedo for a high end classy portrait.

DARK & MOODY

logos

patterns

transition lens

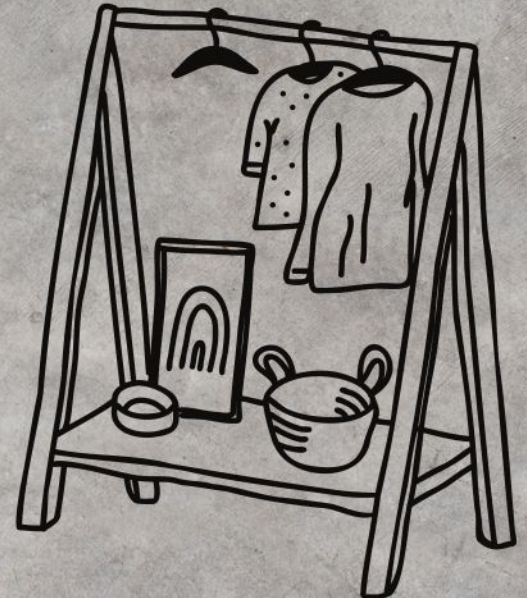

apple watches

hair ties on wrist

pockets full

Feel free to bring more than you need. Your photographer can help you decide what is best to wear. Phone us anytime for advice or help!
